

# Imagine

Total security for your home Wi-Fi

## Keep a lock on your network

Fully managed by Northern Lights Fiber and controlled by you.

### Protect all devices on your Wi-Fi

All traffic that passes through your network is scanned for viruses and blocked.

### Keep website access safe

Thousands of malicious sites - phishing, hijacking, spyware, hardware, and malware sites are automatically blocked.

### Stop intruders

ProtectIQ™ prevents cyber criminals from accessing your network, keeping your sensitive information secure.
